Dayseaday Group

GRUPUL DAYSEADAY

Grupul Dayseaday este de ani de zile unul dintre liderii comertului european pe piata de peste si fructe de mare, proaspete si congelate. Pestele din Marea Nordului (calcanul si cambula) este inca foarte important pentru Dayseaday; totusi, compania s-a dezvoltat datorita importului de peste din Asia, America de Sud si Sudul Africii. Compania este localizata in Urk, unul din cunoscutele centre europene de peste.

Inca de la infiintare, compania a cunoscut o crestere rapida, de la 5 angajati la finalul anului 1986 la 120 de angajati in 2017. In acest moment Grupul Dayseaday are o cifra de afaceri de peste 120 de milioane de euro.

Compania ofera facilitati moderne de procesare si depozitare a unei game variate de produse din peste.

Grupul isi desfasoara activitatea in aproximativ 50 de tari din lumea intreaga si cauta in permanenta produse din peste care pot fi vandute in special in Europa.

Reputatia buna, serviciile rapide, preturile competitive, o echipa motivata si competenta si mai mult de 30 de ani de experienta, toate acestea contribuie la servicii de calitate pentru clientii nostri!

Descoperiți în acest catalog tot ceea ce va poate oferi Grupul Dayseaday!

Dayseaday Frozen B.V.
Oceanis Seafood SRL
Muijs Seafood B.V.
Bonesca B.V.(partial)

CEO:

Jelle van Veen
Henk van Veen

Introduction Dayseaday Group

For many years Dayseaday Group has been a leading partner in fresh and frozen fish products. North Sea fish, like dover sole and plaice are still very important for Dayseaday. The company, however, is especially grown over the import of seafish and farmed fish from Asia, South America and South Africa. Dayseaday is located in Urk in the Netherlands, the fish centre of Europe.

Since the start of the company, at the end of 1986, the company has known a rapid growth. In 1986 the company had 5 employees, against 120 currently in 2017. The main cause was the autonomous growth but also a number of acquisitions at home and abroad. Now Dayseaday Group has an annual turnover of more than 120 million euro.

The company offers up to date, modern facilities for processing and storage of a great variety of fish products.

Dayseaday Group is doing business activities in about 50 countries worldwide and is continuously looking for fish products in the world that could be sold in particular all over Europe.

A good name, fast service, competitive prices, a motivated and competent team of employees and more than 30 years of experience, provide the quality you wish as a customer!

Discover in this brochure what Dayseaday Group could offer you.

Dayseaday Fresh

Dayseaday Fresh B.V.

Cand vorbim despre peste proaspăt, Dayseaday Fresh B.V. se află în topul companiilor din domeniu de mai bine de 30 de ani. Materia prima proaspăt pescuită este cumpărata zilnic, prin diverse canale, din întreaga Europeană.

După licitații, pestele este transportat imediat către fabrica noastră din Urk, unde este procesat. Peste 100 de sortimente de peste și produse din peste sunt distribuite de către departamentul de peste proaspăt, prin intermediul transportatorilor certificați, către diferite destinații din Europa și din afara ei.

Pentru clientii din afara Uniunii Europene, Dayseaday poate folosi transportul aerian. Pestele și produsele noastre din peste sunt procesate zilnic în conformitate cu standardele cerute de HACCP, BRC, IFS și FDA. Dayseaday Fresh B.V. livrează, de asemenea, specii certificate MSC.

Compania noastră este acreditată pentru schimburi comerciale cu Rusia. Dayseaday Fresh B.V. are o echipă bine pregătită și motivată de procesatori, care au acces la facilități moderne, camere de producție și impachetare echipate după cele mai înalte standarde în domeniu.

Toti acești factori oferă clienților garanția că produsele noastre satisfac cele mai ridicate cerințe în materie de calitate, flexibilitate și diversitate.

Dayseaday - A sea of possibilities!

Introduction Dayseaday Fresh B.V.

When it comes to delivering fresh fish, Dayseaday Fresh B.V. has been a leading company for more than 30 years. The raw fresh material, caught sustainably is purchased daily under strict criteria from different purchasing channels all over Europe.

After the auction process we see to it that as soon as possible the fish is transported to our intake department in Urk, the place where our processing factory is situated and what we use to call: the fish centre of Europe. More than 100 species of fish and fish products are distributed from our fresh fish department by certified transporters to various destinations within Europe and beyond. As to clients outside the European Union Dayseaday Fresh also makes use of transport by air. Our fish and fish products are processed daily according to the standard requirements of HACCP, BRC, IFS and FDA. We also deliver MSC certified species.

Our company is also audited and certified by Russian Rosselkohznadzor in order to deliver to the Custom Union. Dayseaday Fresh B.V. has a thoroughly trained, motivated team of fish processors that performs its task with great enthusiasm and has access to modern facilities such as production, packing and distribution rooms equipped with all processing and packing machinery and logistic features.

All this makes it possible that our top quality products can be delivered and to be able to guarantee our customers that the products meet the highest requirements. Talking about quality, quantity, service, flexibility and assortment, we have acquired an excellent reputation.

A sea of possibilities, and a challenge for you to discover this.

Dayseaday Frozen

Dayseaday Frozen B.V.

Dayseaday Frozen B.V. este de ani de zile unul dintre liderii comertului european pe piata de peste si fructe de mare congelate. Sortimentatia diferita consta in mai mult de 150 de specii de peste si produse din peste. Speciile din Marea Nordului (calcan, cambula, cod, calamar si caracatita, dar si ton si creveti) sunt principalele noastre produse.

Dayseaday Frozen B.V. importa produse din peste din lumea intreaga, din Vietnam, China, Bangladesh, India, Indonezia, Noua Zeeleanda, Tanzania si Chile. Compania are birouri in Italia, Spania si Portugalia, si o subsidiara in Romania ce va fi prezentata in paginile urmatoare.

Dayseaday Frozen B.V. are o capacitate de depozitare de 6500 de paleti. Din camerele de depozitare frigorifice pleaca zilnic transporturi catre toate tarile Europei si catre tari din afara ei. Dayseaday Frozen B.V. face importuri si exporturi in intreaga lume, transportul facandu-se atat cu camioane cat si cu vapoare.

Un brand de incredere, servicii rapide, mai mult de 30 de ani de experienta si o echipa profesionista si motivata sunt cateva din caracteristicile prin care Dayseaday Frozen B.V. se remarcă pe piata de peste din intreaga lume. Scopul nostru este sa oferim produse si servicii la cele mai inalte standarde.

Dayseaday este certificata MSC, ASC, BRC, IFS si HACCP. Compania are de asemenea permis vamal AEO.

Dayseaday Frozen B.V. – partenerul tau de viitor!

Introduction Dayseaday Frozen B.V.

For many years Dayseaday Frozen B.V. has been a leading business partner in deepfrozen (sea)fish products. The wide assortment consists of more than 150 species of fish and fish products. Species from the North Sea like dover sole, lemon sole, plaice, cod, turbot, squid and octopus but also tuna and shrimps are the main products.

Dayseaday Frozen B.V. imports worldwide fish products, from Vietnam, China, Bangladesh, India, Indonesia, New Zealand, Tanzania and Chile. The branch has its own sales offices in Italy, Spain and Portugal and also its own daughter enterprise in Romania of which you will be informed in a separate page in this brochure.

Dayseaday Frozen B.V. has its own storage capacity of some 6500 pallets. From these cold-storage rooms at Urk daily shipments are sent to all countries in Europe and some other countries outside Europe. Transport within Europe is executed by lorry and outside Europe by ship. Dayseaday Frozen B.V. imports and exports worldwide.

Dayseaday Frozen B.V. has earned a well known name in the (world) market of fish.

A reliable name, fast service, short lines, more than 30 years of experience and a motivated and professional team, ready to serve clients six days a week. Their ultimate goal is, according to the Dayseaday quality standards, to deliver top quality fish. In order to meet international standards Dayseaday Frozen B.V. has got the following certificates: MSC, ASC, BRC, IFS, HACCP. The company has got the AEO customs permit as well.

Dayseady Frozen B.V. **YOUR** partner for the future !

Muijs Seafood

Muijs Seafood B.V.

In Ianuarie 2016 compania Muijs Seafood B.V. a devenit parte a Grupului Dayseaday.

Compania se numea initial Rutger Kooij Zeevisgroothandel; incepand cu Ianuarie 2017 si-a schimbat numele in Muijs Seafood B.V. dupa numele managerilor Theo si Wim Muijs, doi frati cu o vasta experienta in industria pestelui.

Muijs Seafood B.V. are 20 de angajati care livreaza in principal catre retaileri, dar si catre magazinele mici de peste. Principalele produse cu care compania lucreaza sunt: herring, Alaska Pollack (folosit mai ales pentru kibbeling), cod (intreg si fileuri) si macrou (afumat).

In afara acestor produse Muijs Seafood B.V. livreaza de asemenea o gama diversificata de peste proaspata din Marea Nordului si peste congelat adus din toate colturile lumii.

Deoarece compania mama, Dayseaday, importa direct, rezultatul se reflecta in preturi mici oferite clientilor.

Serviciile rapide si echipa proactiva fac ca Muijs Seafood B.V. sa fie renumita in Spakenburg si in imprejurimi!

Introduction Muijs Seafood B.V.

In January 2016 we were able to welcome Muijs Seafood B.V. as a 100% subsidiary enterprise of the Dayseaday Group.

The company was known under the name of Rutger Kooij Zeevisgroothandel. As from the first of January 2017 the new name is Muijs Seafood B.V. named after the managers Theo and Wim Muijs, two brothers with years of experience in the fish industry.

Muijs Seafood B.V. employs 20 motivated employees and delivers mainly to retailers, in particular to mobile fish retail outlets and fish shops. The company's main products are: herring, alaska pollack (used for kibbeling), cod (whole or fillets) and (smoked) mackerel.

Apart from these products Muijs Seafood B.V. also delivers a wide range of fresh fish from the North Sea and deep frozen fish and fish products from many countries around the world.

Because of the fact that the parent company Dayseaday Group accounts for the imports, the result will be sharp prices for a large group of clients. Short lines, fast and adequate service and easy-going employees resulting in the fact that Muijs Seafood is well known in Spakenburg and surroundings.

Oceanis Seafood

Oceanis Seafood Europa SRL

Sinds 2012 is Oceanis Seafood Europa SRL (OSE) uit Roemenië een volle dochteronderneming van Dayseaday Group. Dayseaday Group is al langer actief in Oostbloklanden zoals Oekraïne, Rusland, Hongarije, Tsjechië en Polen. Via een relatie in Nederland kwam de kans om het bedrijf in Boekarest over te nemen.

De manager, Bogdan Manoliu, een enthousiast man en zijn team bedienen de groothandel en foodservice vanuit een kantoor met coldstore in Boekarest.

Ook wordt er direct en indirect geleverd aan 4- en 5 sterren hotels zoals Marriott, Sheraton en Novotel. De opslagcapaciteit bedraagt 1000 pallets, dagelijks wordt er geleverd door geheel Roemenië. De aanvoer vindt plaats per containerschip via de havenstad Constanta en per vrachtwagen vanaf Urk en andere delen van Europa.

Ook wordt er vis uit Turkije en Bulgarije geïmporteerd, deze landen liggen relatief dichtbij.

Het bedrijf heeft kans gezien om in de afgelopen 5 jaar een grote speler te worden.

Door het grote assortiment (150 artikelen), goede kwaliteit, betrouwbaarheid, continuïteit, flexibiliteit en concurrerende prijzen is Oceanis Seafood Europa SRL inmiddels een begrip in Roemenië en omringende landen.

Ook in Roemenië geldt: **afspraak is afspraak!**

Oceanis Seafood Europa SRL

Since 2012 Oceanis Seafood Europa SRL (OSE) in Romania is a full daughter company of Dayseaday Group. Dayseaday Group has been active for a long time in countries like Ukraine, Russia, Hungary, the Czech Republic and Poland. The possibility for taking over the enterprise in Bucharest was suggested by a relation in the Netherlands.

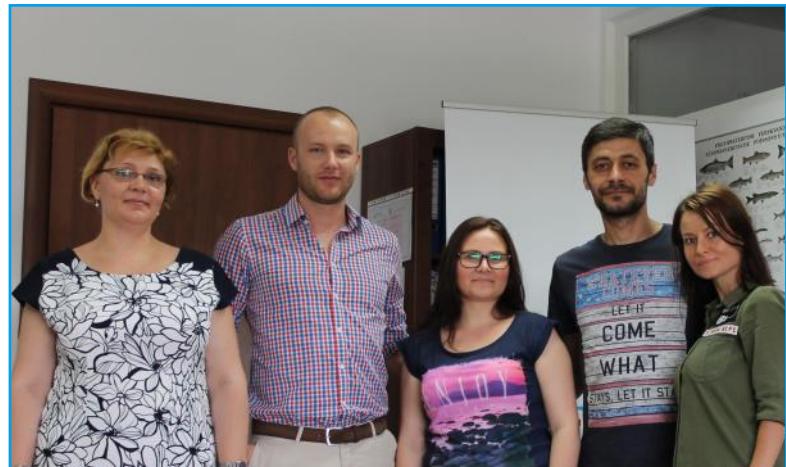

The manager, Bogdan Manoliu, an enthusiastic man, and his team supply wholesalers and foodservice from a coldstore and office in Bucharest. Directly and indirectly Oceanis Seafood Europa delivers to 4 and 5 stars hotels, like Marriott, Sheraton and Novotel.

The storage capacity of the company is 1000 pallets and delivery throughout Romania is a daily business of Oceanis Seafood Europa SRL.

The supply of fish and fish products takes place by containership by way of Constanta port and by lorry from Urk and other parts of Europe. Also fish from Turkey and Bulgaria is being imported, as these countries are relatively close.

Within 5 years the company has seen its chance as a supplier of fish and fish products to become a great player. Because of an extensive assortment (150 articles), good quality, reliability, continuity, flexibility and competitive prices make Oceanis Seafood Europa SRL a well known partner within Romania and nearby countries.

In Romania **a deal is a deal** applies as well!

Despre compania Oceanis Seafood Europa SRL

Incepand cu anul 2012, Oceanis Seafood Europa SRL (OSE), a devenit compania subsidiara a grupului Dayseaday in Romania. Dayseaday a avut si are o activitate indelungata in tari precum Ucraina, Rusia, Ungaria, Cehia si Polonia. Asadar nu am avut nicio ezitare in momentul in care s-a invitat posibilitatea de a prelua afacerea din Bucuresti la sugestia unui partener din Olanda. Managerul (Oceanis Seafood Europa) Bogdan Manoliu, impreuna cu echipa lui tanara si entuziasta, asigura vanzarile catre distributorii si retailerii din zona, coordonand afacerea din biroul si depozitul din Bucuresti.

Atat direct cat si indirect, Oceanis Seafood Europa livreaza produsele catre lanturile hoteliere, catre restaurante, catre retaileri locali dar si catre marii distributori de produse alimentare din Romania, Ungaria si Bulgaria.

Capacitatea de stocare a companiei este de 1000 de paleti si livrările pe tot teritoriul Romaniei sunt desfasurate zilnic.

Aprovizionarea se face prin containere primite in portul Constanta si prin camioane (TIR-uri) ce sosesc direct din Urk (Olanda) sau din alte parti ale Europei.

De asemenea, compania importa peste din Turcia si Bulgaria, tari invecinate. Datorita sortimentatiei variate (peste 150 articole), a calitatii produselor si serviciilor, continuitatii, flexibilitatii si nu in ultimul rand a preturilor competitive, Oceanis Seafood Europa este un jucator important pe piata de profil din Romania si din tarile invecinate.
